

Kramp Price Updates

Kramp have changed their price updates provision from the existing email system to a file transfer option.

The set up for the new process needs to be carried out. Please refer to “Kramp Price Update Set Up 2021 Notes” for the setup information.

Once downloaded, the price file is then loaded into Gold and processed in the normal way.

Notification

An email will be sent to the email address set on the batch when a new price file has been downloaded ready for installation.

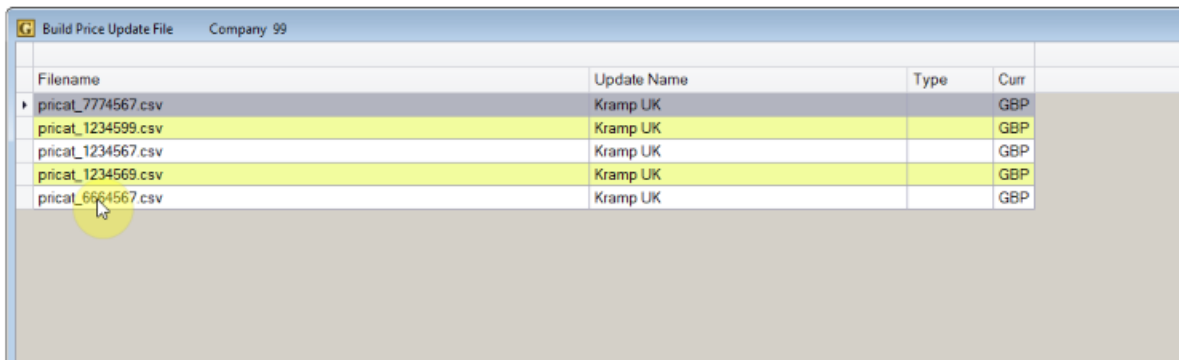

For example:

**New Kramp price update received and ready to load into Gold via Manufacturer Prices Download.
File pricat_0600890.csv received from Kramp at 08/07/2021 07:01:08**

Price File Import

(Communications, Manufacturer Prices Download)

To process the price file, use the Manufacturer Prices Download program.
The system will check for new price updates and display a list of files found.

The screenshot shows a software window titled "Build Price Update File" for "Company 99". It contains a table with the following data:

Filename	Update Name	Type	Curr
pricat_7774567.csv	Kramp UK		GBP
pricat_1234599.csv	Kramp UK		GBP
pricat_1234567.csv	Kramp UK		GBP
pricat_1234569.csv	Kramp UK		GBP
pricat_6664567.csv	Kramp UK		GBP

Highlight the required file and press <Enter> to process.

Build Price Update File

Field	Options	Selection
Price Update Filename		Completed Automatically
Full or Partial Update	Full Partial	Select 'Full' for full price update
Prefix Code		Enter the prefix code used for Kramp.

Select 'OK' to continue.

Price Update

The program automatically chains on to the standard Parts Price Update program to process the update.

Users do not need to be off the system for this process.

Field	Options	Selection
Prefix		Will be displayed as entered previously

Other options can be altered as required. Select 'OK' to process the price update.

On completion, a summary of the parts updated will be displayed.

At the end the option "Tidy Up Price File" is displayed.

Select 'Yes' to remove the processed price file.
