

Kramp Price Updates

Kramp have changed their price updates provision from the existing email system to a file transfer option.

Once set up, price update files are downloaded automatically from the Kramp system and an email notification sent to a user to let them know there is a new price file available.

The price file is then loaded into Gold and processed in the normal way.

In order to carry out the set up you will need access to the System Management menu in Gold. The set up can be carried out in either Classic or Windows Gold.

Setup

Ensure that as a minimum v7.25 of Gold has been installed prior to commencing set up.

Note: this integration checks the existing licence for Kramp subscription price updates (KRP), as Kramp price updates are provided and charged on a subscription basis not a per price update basis.

Batch Queue

(System Management, Utilities, Batch Queue Maintenance)

A new batch is created to download the price files from Kramp.

Details

| Batch Option | File Maintenance | Company | 24 | Ibcos Demonstration |
|--|----------------------|--------------------------|----|---------------------|
| Amend Mode | | | | |
| <div> <div>Details</div> <div>Timing</div> <div>Tasks</div> </div> | | | | |
| Batch Option: | KPU | | | |
| Description | Kramp Price Update | | | |
| Delete Requests? | No | <input type="checkbox"/> | | |
| Type: | Scheduled Task | | | |
| Email: | <input type="text"/> | | | |

| Field | Options | Selection |
|--------------|------------------------------------|---|
| Batch Option | | Enter a 3-character code, e.g., KPU |
| Description | | Kramp Price Updates |
| Type | Report Update Scheduled Task | Select "Scheduled Task" |
