Goldpay April 2024 Release 24.10

New NIC Category letters for Investment Zones

From 6 April 2024, 4 new Investment Zone NIC Category letters will come into effect for employers in Britain as part of the Investment Zone NI Relief (IZENR) which provides a package of tax relief to employers with employees working within geographic areas, as prescribed by law.

Following these changes in legislation, we have made the following software amendments:

- Include new NI letters:
 - N – Standard category letter
 - E – Married women and widows who are entitled to pay reduced NICs
 - K – Employees over the state pension age
 - D – Employees who can defer paying 10% NIC and pay only 2% because they are already paying it in another job
- Added Working in Investment Zone tick box in the Employee record under the **Personal** tab.

Statutory Paternity Pay

From April 2024 onwards, a new policy allowing an employed father to take Paternity Pay and Leave in two non-consecutive periods totalling 2 weeks within 52 weeks of the birth date or placement date of the child for adoption will come into effect.

Changes are effective from 7th April 2024 for births and 6th April 2024 for placements.

This legislation does not currently apply to Northern Ireland.

Following this change, in the **Employee > Absences > Add Absence > Paternity** screen, we have added a **Pay SPP using Northern Ireland rules** when Paternity is selected.

If the date entered in the Week baby due (Sunday) is before 7 April 2024 or the child's Placement Date is before 6 April 2024, the First day to have SPP field displays as First Leave Start Date.

If the date in the Week baby due (Sunday) field is on or after 7 April 2024 or the date entered in the child's Placement Date is on or after 6 April 2024, and the Pay SPP using Northern Ireland rules checkbox is unset:

- The First day to have SPP field displays as First Leave Start Date
- A Second Leave Start Date field is displayed

Statutory Maternity Pay

The system validation which previously prevented male employees from claiming Statutory Maternity Pay (SMP) has been removed. This is effective from April 2024 onwards and follows HMRC decision to review the SMP eligibility criteria. The rest of the criteria to be eligible from SMP, 26 weeks employment and average weekly earnings remains the same.

Standard Life GTG Payments Pension file changes

A column header has been renamed from Salary to Pay Period Pensionable Earnings. A new column headed Pensionable Pay Definition will be added for all qualifying Pension Schemes.

Tax Code Changes

There is no change to the standard Personal Allowance, £12,570 or the emergency tax code: 1257L

Scotland have introduced a new Tax Band – SD3

Updates to Tax, NI, Statutory Payments, and AE Rates

Tax, NI, SSP, SMP, SAP, SPP, ShPP & SPBP

We have updated the rates for tax, NI, and statutory payments, in line with legislation, for the tax year 2024/2025.
