What customers say:

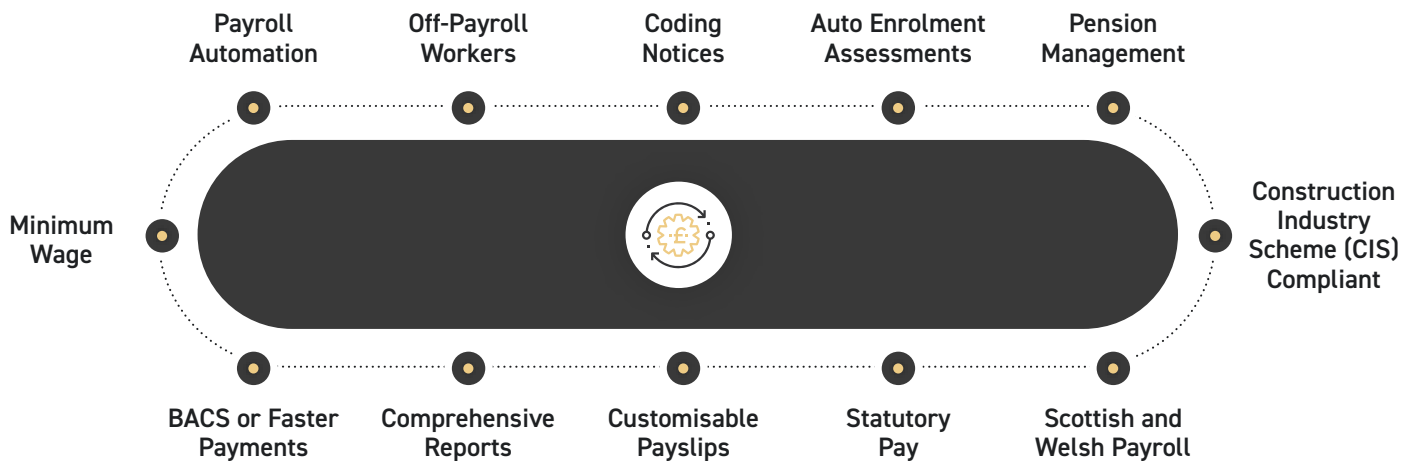

Modern, intuitive interface

"Most payroll software is clunky, whereas Gold Payroll is a joy to use and it's easy to find my way around. This saves time, frustration, and helps avoid mistakes."

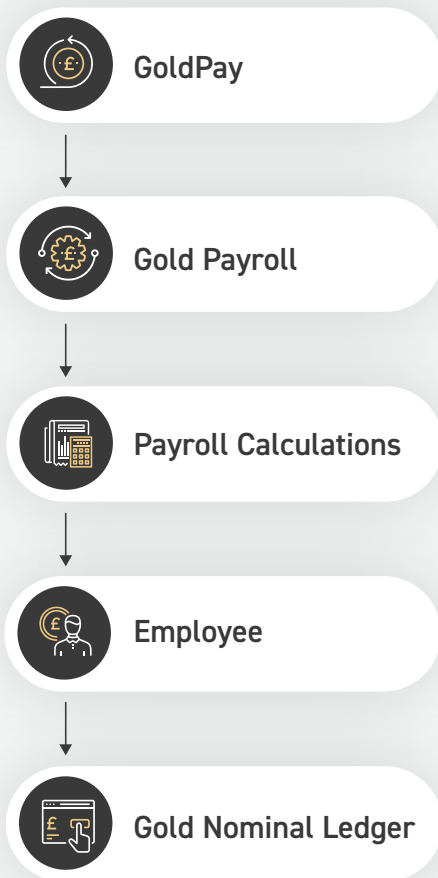

Automation saves so much time

"The level of automation is second-to-none. It saves me considerable time, which I can use elsewhere in the business."

Some of the features include:

How does it work?

1. Data from GoldPay is migrated to Gold Payroll (current year).
2. Payroll calculations are exported or accessible from Gold Payroll and downloadable BACS files are available.
3. Payslips are emailed to the employee.
4. Payroll data is loaded into the Gold nominal ledger.
