What's new in Gold

May 18, 2024

Gold Version: **7.32.2**

Gold Parts App

- Serial parts can be received into stock. [Ref.10556]
- Parts App GRN: at GRN (Goods Received Note) a list of customer advices are emailed to the user. [Ref.10729]
- Learn more about Gold Parts App here.

Workshop Document Forms

- Workshop invoices for serial repairs now display the full part number. [Ref.10064]

Nominal Ledger VAT Return

- The Making Tax Digital (MTD) VAT integration allows VAT Returns to be submitted from Gold. Along with the figures themselves we must send a set of Fraud Prevention Headers. These act as a digital fingerprint to identify the user and system that submitted the VAT Return. Improvements have been made to ensure the information submitted is compliant with OTHER_DIRECT connection method. [Ref.10044 & 10037]

Emailing from Invoice Range Reprint

- Customers set to email Single or Separate attachments will now receive invoice documents when sending via Invoice Range Reprint. [Ref.10864]

AGCO eCommerce

- eCommerce invoices set to Batch Invoice are no longer bringing up a message for payment method. [Ref.10710]
