What's new in Gold

September 4, 2024

Gold Version: **7.32.11**

John Deere Workshop Efficiency Tracker (WET)

- We have now extended the date parameters to the JD WET batch job so it now extracts and uploads at least 6 months' worth of data. [Ref.392]
- Learn more about John Deere Workshop Efficiency Tracker here.

CNH Parts Retail Inventory Management (PRIM) Inter Depot Transfer Import

- The file format has been amended so that CNH suggested Inter Depot Transfers can be imported into Gold. The file must be converted from xlsx to csv. [Ref.9]

AGCO Web Enquiry

- The link to AGCO net to display part data has been re-established and the handshake error no longer occurs. [Ref.10452]

Parts App Inter Depot Transfers

- IDTs can now be processed via Gold Parts App using the Receive icon to access any available IDT orders. [Ref.10655]
- Learn more about Parts App here.
