

# What's new in Gold

January 21, 2025

## Gold Service Mobile App: 2.5.2

### Gold Service iOS

- On the Story tab, when adding to existing comments in the Conditions box, it now pushes the comments box up and above the available eyeline. [Ref.SA-1834]
- Learn more about Gold Service [here](#).

### Gold Service Android

- Scrolling on the Parts tab caused the app to jump to another tab. This has now been fixed. [Ref.SA-1827]
- Checklists can now be accessed during the completion of a job. [Ref.A-1831]
- A bug fix has been made that now on the week summary of Android 15, the Labour and Total buttons are showing 00:0 instead of 00:00. [Ref. SA-1832]
- On Android 13, an error has been fixed when sending the support bundle. [Ref.SA-1833]
- An issue on the main menu appearing and freezing when inputting a signature or not able to save a signature on Gold Service 2.5.1 on SM-T575 tablets running Android 13 has been resolved. [Ref.SA-1840]
- Learn more about Gold Service [here](#).
