

# Same Deutz-Fahr Stock Extract

A guide for uploading current stock position to the Same Deutz-Fahr website

## 1. SET UP

As the stock is usually uploaded on a regular basis, it is recommended that the Batch Group Job options be set up to run automatic uploads at regular times. Follow the steps below to enable this.

In Gold, navigate to  
**System Management > Security > File Transfer Details**

1. Insert a new File Transfer ID - **SDF**.

2. Fill in the entry fields using the table below and select **OK** when complete.

File Transfer File Maintenance - Insert Mode

Details Amazon AWS S3

File Transfer ID: SDF

Description: Same Deutz-Fahr UK

Transfer Type: Transfer File to Web Site

Terminal ID:

Windows Share:

RSA Location:

Username/Id No: samedeutz-fahr/ftpfor

Password: \*\*\*\*\*

Site Name: 195.103.16.118

IP Address: 195.103.16.118

Windows Domain:

File Path:

Passive Mode: Yes

Attributes:

Restricted: No

OK Cancel

Field	Entry
Description	Same Deutz-Fahr UK
Transfer Type	Select <b>Transfer to Web Site</b>
Username/Id No	Enter <b>samedeutz-fahr\ftpfor</b>
Password	Enter <b>ftpfor</b>
Site Name / IP Address	Enter <b>195.103.16.118</b>
File Path	Enter a single full stop (.)
Passive Mode	Select <b>Yes</b>

## 2. BATCH QUEUE

Follow the steps below to set up a batch queue.

Ensure you are logged into Classic Gold as user Gold rather than Root. Then, navigate to  
**System Management > Utilities > Batch Queue Maintenance**

1. In the **Details** tab, fill in the entry fields using the table below. A # indicates a default setting.

Field	Default	Entry
Description		Enter <b>SDF Stock Extract</b>
Delete Request	No# Yes	Set to <b>No</b>
Type	Update Report# Schedule Task	Set to <b>Update</b>

2. Same Deutz-Fahr requires monthly stock uploads between the 15th and 6th of the following month. We recommend scheduling the batch in the final week, for example the 26th. Enter the details in the **Timing** tab as shown below.

Field	Entry
Run	Select <b>Monthly</b>
Day of the Month	Set the batch to run during the final week of the month (e.g. <b>26</b> )
Run at	Select a time for the batch to run (e.g. <b>04:30</b> )

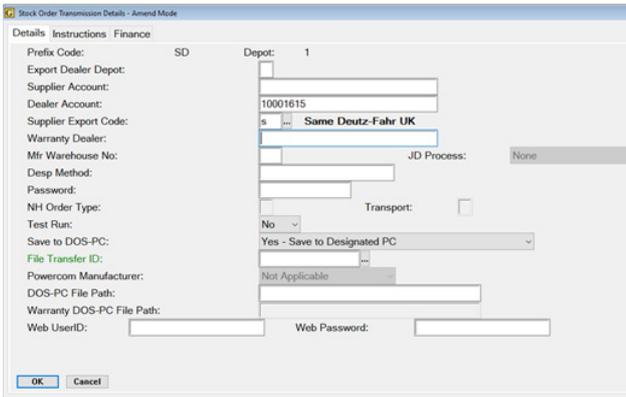

3. Select **OK** when complete.

### 3. STOCK ORDER TRANSMISSION DETAILS

The Stock Order Transmission record for appropriate depot(s) should already be set up for export of stock orders. It is important to check the dealer account number is set for stock extract purposes. Follow the steps below to do this.

Navigate to  
**System Management > Parts Control > Stock Order Transmission Details**

1. Use the table below to review and confirm the details. Update any fields if required, then select **OK** when complete.

Field	Entry
Prefix Code	Confirm the supplier prefix code used for SDF (e.g. <b>SD</b> ). This should already be set.
Dealer Account	Verify the dealer account number provided by SDF. Update only if incorrect.
Supplier Export Code	Confirm <b>s</b> is selected for Same Deutz-Fahr (used for purchase order export).

## 4. STOCK EXTRACT

In Gold, navigate to  
**Communications > Manufacturer Stock Export**

1. Fill in the details using the table below.

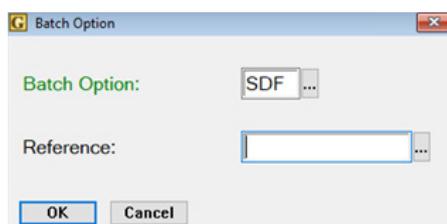

Field	Entry
Prefix Code	Enter the supplier prefix code used for SDF (e.g. <b>SD</b> )
Export Layout	Select <b>Same Deutz-Fahr UK</b>
File Transfer ID	As created above (e.g. <b>SD</b> )

2. Select **Save** to save the settings.

3. Select **Batch** to set the appropriate batch queue for the stock extract (as set up above).

4. Select **OK** to run the stock extract.

5. Select **Yes** when promoted with the **Print Batch Selection Details?** screen.

## 5. CHECK BATCH SETUP

Once you've created the batch, follow the steps below to check that the extract has been successfully added to the batch.

In Gold, navigate to  
**System Management > Utilities > Batch Request Maintenance**

1. Select the batch created - **SD**.
2. Select **OK** when complete.

Sequence	User	Ref	Program
1	IBC	Ibcos ibcos	SKEXAS

### Did you know?

You can manually process this by selecting the Process option, which will send a file to Same Deutz-Fahr immediately.
